Biography

The music of Bernese cosmic explorers Deserto Parallax occupies a folk noir world of dreams, infinity, and mysteries. It offers a listening experience aptly described as a multi-sensory exploration into the realms of imagination, blurring the lines between reality and the subconscious.

Founded in 2017, its members have played in various bands, including Artlu Bubble And The Dead Animal Gang. Lead singer/songwriter Maximilian Tzortzatos is well-placed to lead us into a world of tales and protest, while the band's expansive, sweeping palette of influences ranging from early seventies rock to more folksy (obscure) tunes and out-and-out cosmic are a tantalising prospect.

It's a journey, not a destination. From intimate acoustic formations to rumbling electric live concerts, Deserto Parallax reminds us that music is timeless and has no borders.
